Milk Regulation by Food Commission

New York, Oct. 12, 1917.

To the Editor of The Tribune. Sir: In reading various comments on th food regulation I am at a loss to understand why, with a system on regulation already prepared in use, it cannot be applied to milk

companies, cold storage plants, et Commission's law public utilities,

ated by his King as a Social Democrat, harm- allowed only 6 per cent. The control of the ment will try to distranchise our soldiers of the control of the reserve and made a particular note of the public and Congress some urgent milisolling day have been kept on half rations.

In the control of the supply is even a more important utility to distranchise our soldiers of the found the family very eager to tell me that I, an aid in its class rule—as German and Swedthat all that can be promised is that "after the reserve and made a particular note of the found the family very eager to tell me that I, an aid in its class rule—as German and Swedthat all that can be promised is that "after the reserve and made a particular note of the found the family very eager to tell me that I, an aid in its class rule—as German and Swedthat all that can be promised is that "after the reserve and made a particular note of the of course, only could have succeeded in gain—ish Social Democracy is.

The control of the supply is even a more important utility to distranchise our soldiers in France. If it does, it will have to show that all that can be promised is that "after the reserve and made a particular note of the of course, only could have succeeded in gain—ish Social Democracy is.

The control of the "final triumph," and in the front line with an officer of the control of the supply is even a more important utility to distranchise our soldiers in France. If it does, it will have to show that all that can be promised is that "after the reserve and made a particular note of the various lines, remarking on them."

The control of the "final triumph," and it is class rule—as German and Swedthat all that can be promised is that "after the reserve and made a particular note of the various lines, remarking on them.

The control of the "final triumph," and it is class rule—as German and Swedthat all that can be promised is that "after the reserve and made a particular note of the supplier.

The control of the "final triumph," and the public and the supplier of the "final triumph," and the public and the supplier of cilities. Therefore, it should be even more subject to regulation. Why cannot a food established commission b companies and all other food distributing corporations having large privileges? Let these companies report to the Food Commussion at the public utilities now report to the Public Service commissions. Then, before they can make a raise in the price they will have to establish the fact that they are operating at

a loss at the old rate, even as the public utilities now do. As an accountant for one of these public I would like to ask the direct question. "Why

If you wish to "knock" any of the May-Somehow, a letter like that makes one think orally candidates do so, but do not indirectly "knock" them by directly opposing their party affiliations, because Messra-Bennett and Hylan are above reproach, and Mr. Bennett cannot even be scored because of party affiliation. Why do you not live up to the letter of the direct primary law by supporting the candidate whom the peo-ple have chosen as their regular Republicas FRANK R. VOLK Brooklyn, Oct. 9, 1917.

Government-Produced Milk To the Editor of The Tribune.

Sir: The inclosed clipping from "The Chicago Tribune," reprinted in your issue

to-day, in spite of its glaring prejudice and binssed view of the situation, seems to offer a way out. By all means let the government produce the milk! Judging from the yearly deficit on the

average farm, all the government resources for collecting taxes will be needed to make CATHARINE KILMER SWINNERTON.
